

THE EARTH KRAFT

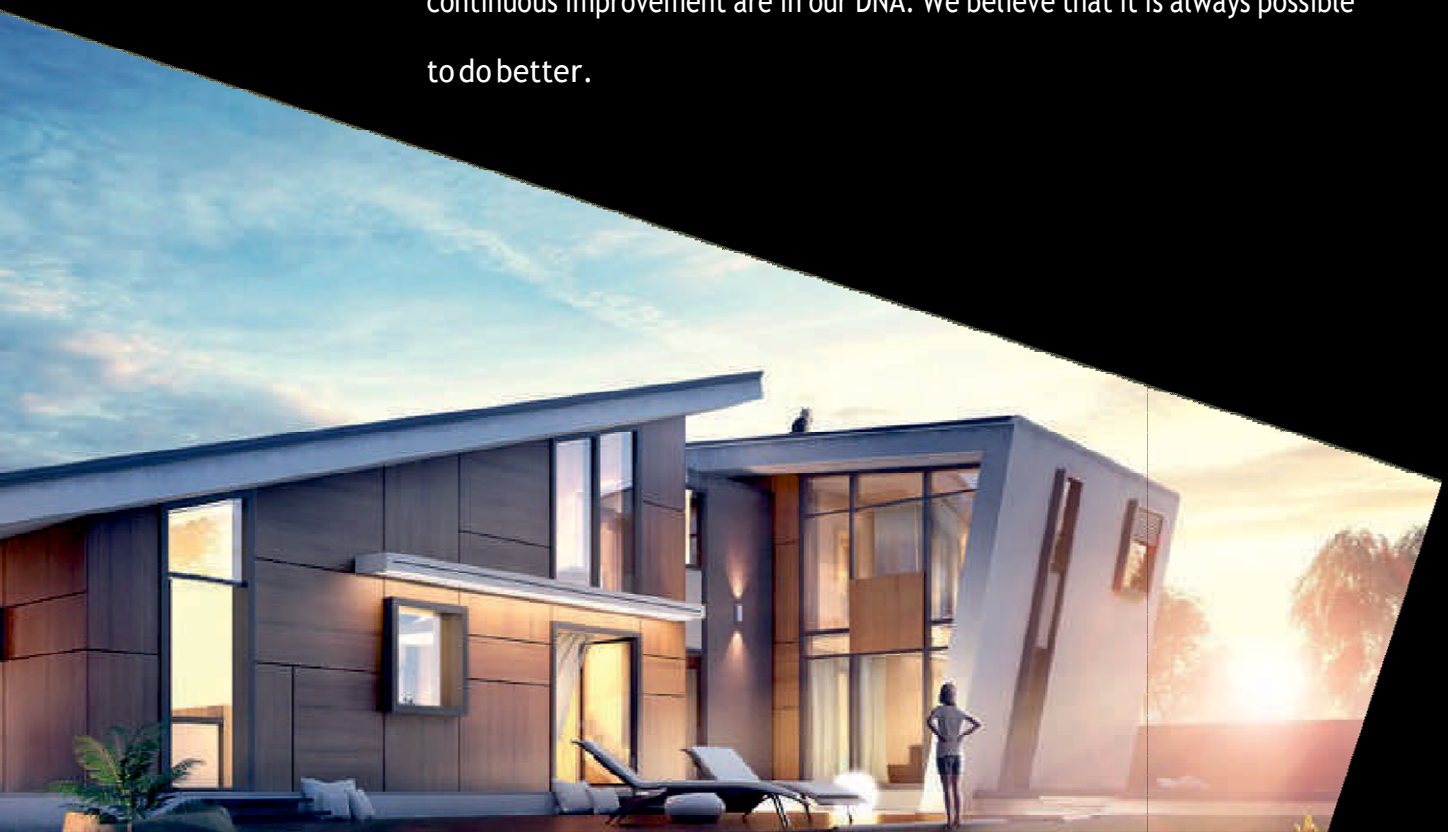

ALL ABOUT FACADES

From the roots of yesterday, we build better tomorrow.
A future built on sturdy and wood-free shoulders.

ABOUT The Earth Kraft

The Earth Kraft a name of Luxury, quality, innovation and services. The earth kraft is a self - supporting high pressure laminate (HPL) with a decorative surface that is suitable for exterior. It is fade resistant weather-proof. It comes into a regular size of 8*4 and a single sheet weight up to 24kg. The Earth Kraft has always kept an eye on the quality products, aesthetic designs and functional superiority. Being one of the biggest importers of the High-Pressure Laminate sheets with having 6+ own branches and fully qualified team which serves full project for Hotels, Schools, Corporates, Government sector, builder, architects etc. We offer exceptional durability and tremendous value for money. We just not focus on sales areas but after sales service with all spare parts and good technicians across globe. Evolution and continuous improvement are in our DNA. We believe that it is always possible to do better.

BENEFITS

- Practically maintenance-free.
- No Polishing required.
- Easily installable on any wall.
- Cost efficient.
- Termite Free,
- Fire Retardant
- Water Proof
- Fade Resistant
- Weather - proof
- Highly durable with a life span of 8-10 years
- Reduces wastage during installation
- Provides the look of natural wood for years without the hassle of maintenance
- Scratch resistant
- Impact resistant
- Double hardened

MANUFACTURING

The manufacturing process involves the combining of papers with applications of high heat (150.c) and high pressure (9 mpa) In which resin polycondensation takes place. One or both sides can be decorative with the Phenolic Resins. The panels do not contain (chlorine, fluorine, bromine)etc.

WARRANTIES

With practical experience over many years and the high quality of TheEarth Kraft HPL Panels, warranties are available both for the product range in general and for specific projects. More information can be obtained from our local representative.

ASSURANCES

The Earth Kraft warrants the quality of its exterior cladding panels within the framework of the given values and tests standards. However, they are expressly not liable for defects in the substructure of defective installation as they have no control over the execution of these. The local building regulations are to be followed without fail- we accept no liability with regard to these. All information corresponds to the current stage of the technology, suitability for particular applications cannot be confirmed in general. The product carries a 10 years guarantee* against colour fading, bending, wrapping, delamination

HANDLING & STORAGE

The Earth Kraft comes with a film on top layers for protection during the transportation. During stocking, panels must be stacked horizontally on flat, stable shelf, the Panels to be stored in closed room under dry, normal climatic condition. Cover plates must always be left on the stack. The cover should be weighted down. Any form of dirt or dust between the panels must definitely be avoided. Panels must be lifted and not pushed or pulled over the edge when carrying or loading. For climate differences, keep panels waiting for 24hours in new climate conditions. With pre-installed fastening elements, car

PLACES TO BE APPLIED

- Wall and façade linings
- Cladding
- Decoration of commercial sites
- Residential dwellings
- Silhouette profiles
- Fences
- Façade claddings
- Balcony claddings
- Partitions
- Rear ventilated facades
- Ceilings
- Outdoor furniture
- Public facilities
- Attic claddings
- Awnings

CHARACTERISTICS

- Resistance to UV rays
- Resistance to atmospheric conditions
- Resistance to swelling in boiling water
- Fire-resistance
- Physical resistance to strikes and abrasion
- Wide range of colours and patterns
- Easy to care and repair
- Do not contain any harmful substances
- Maximum light fastness
- Overall lightweight substructure and facade
- Dimensional stability and flatness
- Light weight façade system
- Easier perforation
